Important events:

SIGNING ASSOCIATION PARTNERSHIP IN A NEW COMPANY

Chromosome Dynamics informs investors about the start of documentation in order to associate with a natural person in a new company with the aim of establishing a liquid and solid fertilizing production facility within Teleorman County.

Chromosome Dynamics will hold a minority stake in the new company.

The associated natural person will ensure the entire working capital necessary for the purchase of equipment, operational, marketing, logistics costs and any other costs that may arise in order to carry out the activity of production and marketing of fertilizers.

The production facility in question is scaled to produce over 2.000.000 L of liquid fertilizer, respectively over 10.000 tons of solid fertilizers.

As a secondary field of activity, the company will sell seeds, pesticides and fertilizers and will also purchase cereals and oilseeds from the market in order to sell them.

We mention that the company Chromosome Dynamics will participate exclusively with know-how in the new company.

The estimated deadline for the completion of the factory of liquid fertilizers and solid fertilizers for the soil is 30.06.2023.
