Important events to report: Launch of the HOMELAND BETA social network, in a closed system

Chromosome Dynamics SA announces to investors regarding:

Chromosome Dynamics has launched the Beta version of the Homeland social and accountability network in a closed system.

Bucharest, August 30, 2023

Chromosome Dynamics (stock symbol **CHRD**) has launched the **Homeland** social network in a closed system (maximum 10,000 users).

Homeland, an innovative platform that redefines users' experience in the online socializing environment, aims to become a positive and inspirational force among social networks, emphasizing real values, culture and a balanced lifestyle.

"Homeland is committed to providing a safe and positive virtual environment for all its users. In a time when online security is becoming increasingly important, Homeland stands out through its efforts to create a space where users can feel safe and respected. Moreover, in contrast to the 'junk content' that floods other platforms, Homeland puts quality content in the spotlight by tailoring interests right from the account creation, offering a valuable resource for those seeking knowledge and meaningful connections. The beta version of our application is already starting to be populated with users who understand the Homeland vision and support us in this initial stage of the 'home' experience", reports Ionel Mugurel Gabriel.

Within the Homeland network, users can form interest-based groups (called *communities*), allowing them to explore topics of interest in depth. The beta version of the app provides the ability to create **free communities**, with users being able to monetize shared content in the official Homeland 1.0 version.

"We are very excited about the launch of the Homeland Social Network for internal testing. Although in this stage of the app, the option to create paid communities or the possibility of promotion through CHRDads will not be available – functionalities that will be accessible in the official Homeland 1.0 version by the end of September – users can test the basic features, helping us refine them and address any potential issues", adds the CEO of Chromosome Dynamics.

You can learn more about the **Homeland social network** [here](#).

Download the Homeland Beta version now from [AppleStore](#) or [GooglePlay](#).
